

Firefighters to Host Marrow Drives and Pancake Breakfasts Across the Valley

Fire Captain Keith Schlarf

Retired firefighter and member of the Hall of Flames, Keith Schlarf was diagnosed with Lymphoma in 2008. Although he went into remission, his cancer has returned.

Keith assisted in the Delta rocket, Shuttle launches and assisted with recovery in the Shuttle disasters. He trained countless NASA firefighters in all aspects of space and ground rescue, repelling, crash fire truck and HazMat.

Jason Clark

Jason Clark was diagnosed at the age of 9 with Leukemia. He went through treatment at Phoenix Children's Hospital last year and was released in December 2008 and was considered in remission. Dec 2 at a routine doctors appointment, his blood work indicated that Jason had relapsed. No one in Jason's family is a match.

Eat Breakfast ...Save a Life!

Valley firefighters will be hosting marrow drives and cooking pancakes to raise money to add more life-saving donors to the registry.

Find a location near you and join us!
